

# Conveyor Belt

## ContiTech Conveyor Belts

ContiTech are one of the leading manufacturers and developers of innovative conveyor belt technology. Our customers experience the benefits of a class leading technology company constantly innovating, finding new avenues to demonstrate our value as the leader in terms of technology, quality and durability.

We offer complete solutions from textile and steel conveyor belts to special conveyor belts, adaptable to the respective application with specific properties which are the result of intensive research and development.

Available in Continental ContiTech cover compounds including;

- Stacker®
- Global-X®
- Survivor®
- Easyrider™
- Monster Hide™
- CONTI® Alert wear indicator

## Fortress XP™

### Fortress XP™ High Abuse Textile Belts

This rugged, fabric-reinforced conveyor belt withstands high abuse applications. It is made with a revolutionary Fortress™ technology weave design, and holds up to the most demanding applications, delivering up to three times longer life. Fortress XP™ provides a lower cost-per-ton with unsurpassed system savings.

## Flexsteel®

### Flexsteel® Steel Cord Belts

Since ContiTech introduced the world's first steel reinforced belt to the material handling industry in 1942, we have continued to advance the technology to satisfy the most demanding and abusive conveyor applications. Using state-of-the-art technology, we ensure superior product design and maximum performance for our customers.

## ContiFlex®

### ContiFlex® Premium Textile Belts

Our premium all-purpose fabric conveyor belt construction can be used in a variety of industries and applications with our exclusive ContiTech rubber cover compounds.

A premium textile belt construction that conveys billions of tonnes of ore for our customers each and every year. For the world's most reliable solution, Trust in ContiFlex®

## CONTI® Coal

### CONTI® Coal to AS4606

Our Australian made range of Steel Cord and Ply Textile Belts to AS4606. With Flexsteel® Coal steel cord, ContiFlex® COAL ply and Coal Flo® solid woven fabric belts, Continental has the widest range of underground solutions available in the market. With installations exceeding 20 years, no product demonstrates unprecedented reliability like CONTI® Coal.

## PowerPly®

### Power Ply® All Purpose Textile Belts

PowerPly is our standard multi-purpose fabric conveyor belt construction that can be used in a variety of industries and application. Available with industry standard cover compounds.

## Textile Belts

For over 150 years, Conti® breakthrough fabric designs have been tested in some of the toughest conveyor belt applications worldwide. These high-quality belt constructions give you the confidence you need for operating performance.

Layers of specially designed fabric plies are sandwiched between rubber skim coats for adhesion and load support. Bottom and top cover compounds are added for maximum protection of the belt carcass. These compounds are comprised of different ingredients to provide unique operational benefits and come in a wide variety of cover thicknesses.

## Steel Corded Belts

Conti® introduced the world's steel reinforced belt to the material handling industry in 1942, since then they have continued to advance the technology to satisfy the most demanding and abusive conveyor applications.

Flexsteel® Belts' steel cord provides superior impact resistance, with the number and size being selected to meet the desired operating tension and application needs. The top and bottom covers provide maximum protection to the steel cord, while cover compounds are specifically designed to meet the demands of the application and are available in a wide variety of rubber types and gauges.

## Heat Resistant

Conti® heat resistant belt is offered with polyester/nylon, polyester/polyester, and fiberglass fabric reinforcements.

It offers high performance in extreme hot material applications. The fiberglass fabric option offers the highest degree of burn-through resistance of any current available fabric reinforcement, designed to handle hot material loads up to 750° F (399°C), providing extreme longevity in severe heat applications.

## Impact Resistant

Do not let ordinary conveyor belts slow down the efficiency of your business. Instead, put your trust in Conti® impact resistant conveyor belts.

With a range including an industry leader in toughness, strength and impact resistance, Fortress XP™ conveyor belts were designed to withstand the harshest above ground belting environments out there, day in day out.

Ask about Conti® Monster Hide™, Fortress XP™, or XCG premium impact resistant conveyor belts.

## Conti® Alert

Conti® Alert is the first and only conveyor belt innovation to let you see belt wear in real time. The red bonding layer, below the top cover, is exposed when it's time to change the belt.

Identifying belt wear allows you to get the most out of your current belt. Knowing when to change your belt helps to prevent down time and increase up time.

Ask about Conti® Alert for your conveyor system.

## ContiTech Conveyor Belt Group

### Legg® Agricultural Belts

LEGG® agricultural belts achieve superior performance by utilizing high quality raw materials, with increased ozone and oxidation inhibitors in the cover compounds. Along with high abrasion resistance, realise years of trouble free service from your LEGG® agricultural belts.

With a range of belts including;  
Round Baler, Baler Thrower, Swather & Windrow Drapers, including Combine pickup, Header, Tub and Grinder belts, Conti® has your agricultural needs covered.

### Industrial Belting

The world of industry does not slow down. That is why you need conveyor belting that is designed to keep up— the kind on of belt you get from Conti®.

Our most durable lightweight belts are strong because they utilize our patented Triple-Warp™ technology. And, while many belts on the market are pre-made, Conti® belts are not.

Our lightweight conveyor belts are custom manufactured. Everything from length, width and colour, to compound and texture is driven by your specific requirements. In addition, we offer a vast choice of fabrics, colours, carcass styles and profiles.

Conti® industrial belting is used in many industries including;

› Food processing

› Agriculture

› General purpose

› Wood products

› Underground mining

› Health and fitness

With a limitless range of constructions and specialised compounds, Conti® has your industrial application covered.
